

Lee Ann Bear's Testimony
In Support of Senate Bill 406
March 26, 2009

I represent Christ YaShuas (Jesus) our Creator, the Montana ProLife Coalition, and thousands of women who suffer from aborting our children.

Abortions and contraceptives do kill people, always the baby, and sometimes the mother. They also permanently damage physical and mental health of the woman who use them. Adopting out unwanted children is better than murdering them! It is far more important to protect the unborn child, from embryo on, and their mother, than to protect eagles and their embryos, as people make laws not eagles?

Knowing what I do today, Planned Parenthood would not have been able to convince me to murder my first healthy 14 or 15 week unborn baby with their lies, nor would I have gone through with my second abortion about the same stage, had I found that my unborn child was still alive, even though this child was from rape, and I was hemorrhaging severely for two weeks. Both cases I would rather die than to live knowing I murdered my child to save **my** life.

I have always known abortion is wrong, but to find aborting life at any stage has never been legalized through the proper branch of this government, angered me. Planned Parenthood would not have been there to lie to me. It is a fact, that Planned Parenthood and doctors are illegally murdering millions of innocent babies. This must be stopped!

Every grade-school morning, many of us pledged allegiance to this "United States of America. A **Republic** for which it stands, One Nation Under God...". Yet we were being deceived and kept uninformed about many things, including life of the unborn. In God's eyes, even the unfertilized egg within the mother, and the sperm within the man, is to be protected, and not waisted on purpose. God put us here to populate and fill this earth with godly children. This was to be through the marriage of each man and his wife bearing and training up their own children. Every child is a gift and a blessing! It is an honor to raise them, not a burden nor a curse! There is something wrong with people thinking otherwise!

Annihilation of the unborn babies, and inhumane treatment of abortions, continues to ravage and victimize defenseless unborn children, and mothers like myself. All this is done under the, 'Freedom of Choice Act', and 'The Privacy Act'. I can not justify any abortions, nor any birth control, as it is all murdering our future generations.

Abortion is murder and is made to seem right, and protecting all unborn children is made to seem wrong. God destroys nations for making right seem wrong, and wrong seem right, as this is evil! If we want to be spared, then we need to make laws right, in the eyes of our Creator, before it is too late! I support this bill!
